

Success Story of A PRC Candidate

I am Sergeant Vishnu Kant (Retd), and I retired from the Indian Air Force on 30 September 2024. Before my retirement, I had the opportunity to attend a Pre-Release course for Warehouse Supervisors at Institute of Entrepreneurship Development (IED) at Shimla. During this course, I learned about the role of a warehouse supervisor as well as the fundamentals of entrepreneurship and enterprise set up process.

I had always wanted to start my own business, and this course provided me with valuable insights into entrepreneurship and process of self-employment. While I was enrolled, I developed a business plan and discussed with the IED Faculties. After completing the PRC course, I launched my tea trading business named **Jeevik Tea** in partnership with my friend Krishan Sharma, who has extensive experience in marketing.

It has been eight months since we started, and the business is running smoothly. Currently, it operates offline, but we plan to expand to online platforms within the next one to two months.

I would like to extend my gratitude to DGR and IED, Shimla for providing me with the opportunity to learn about entrepreneurship and motivated me to set up my own enterprise.

Presently, company has a Turnover of Rs 3.0 to Rs.3.5 Lakh monthly and earning approx. Rs. 90,000 per month.

Thank you with Regards,

Sgt. Vishnu Kant (Rtd.)
