

DGR-PRC Candidate Success Story

Candidate’s Story

My name is **Rakesh Kumar**, a **retired Indian Army personnel** with service number **15775010K**. After completing my service in the Army, I aimed to build a stable and respectable post-retirement career by upgrading my skills.

To achieve this, I successfully completed the **DGR PRC course in Warehouse Supervisor** at the **Institute of Entrepreneurship Development Project Office, Shimla**, from **June 10, 2024, to September 13, 2024**. The course enhanced my knowledge of warehouse management, supervision practices, and operational planning through expert sessions and guest lectures.

The training helped me gain confidence and practical understanding, which supported my transition into civilian employment. After retirement, I joined **Punjab State Power Corporation Limited (PSPCL)** as a **Lineman** in **Punjab**. The discipline, technical awareness, and work ethics developed during my Army service and training proved highly beneficial in my current role.

At present, I earn an annual income of approximately **Rs 2.5 lakh**, which provides financial security and stability in my post-retirement life. This opportunity has enabled me to successfully establish a second career after serving the nation.

I sincerely thank the **Institute of Entrepreneurship Development Project Office, Shimla**, and the **DGR-PRC team** for providing this valuable training, which played an important role in shaping my post-retirement career.
